

Wine Grape Pricing and Utilisation Survey

New South Wales 2007

2007 REGIONAL PRICE REPORT

Produced by the New South Wales Wine Industry Association Inc
PO Box 1638
GRIFFITH NSW 2680
Ph 02 6964 4762
Fax 02 6964 3526
www.nswwine.org.au

This survey has been undertaken by the New South Wales Wine Industry Association Inc to gather information on grape purchases in the major NSW regions in vintage 2007, and obtain forecasts of winery committed (contracted) intake and grape demand over the ensuing five years to vintage 2012. This information has been produced as an aid to industry planning, and to assist policy-makers in their dealings with the wine industry at both the local, State and National levels.

Part 1 of the Survey is the publication of prices paid for grapes in the major regions of New South Wales.

The Survey excludes fruit grown in the Murray Valley area of New South Wales around Mildura which is included in separate survey conducted by the Victorian Department of Primary Industries.

This is the ninth survey conducted for New South Wales. Survey data was collected using the form developed by the Australian Wine and Brandy Corporation for the Australian Regional Winegrape Crush Survey to ensure common collection methodology. This allows regional and State data to be aggregated to form a national position. National figures are published by the Australian Wine and Brandy Corporation. Data has been collected in accordance with the NSW geographic indications Regions and Zones.

Survey coverage

Survey questionnaires were sent to all wineries who purchased grapes from within NSW. In terms of tonnes produced, coverage was high with non-response estimated at approximately 1.6% of overall tonnages. Most under-enumeration occurs in the winery grown component

The survey identified a total crush of 296,430 tonnes of NSW fruit (excluding the NSW Murray Valley area). Regional non-response is estimated to be of the following magnitude;

Big Rivers –Other	105t
Canberra District	440t
Central Ranges other	54t
Cowra	76t
Hunter Valley Zone	3,425t
Mudgee Region	238t
Northern Slopes	116t
Orange	897t
Riverina Region	0t
Southern NSW Zone –other	83t
Other not in tables	829t
TOTAL	6,158t

It should be emphasised that the figures in the tables are the sum of the survey response, and readers should be aware of the impact of non-response. It should be noted that the survey is voluntary. The total crush of NSW grapes for 2007 (excluding the NSW Murray Valley but allowing for estimated under-enumeration) is estimated to be 303,000 tonnes which is 25% less than 2006.

2007 Pricing Survey

All wineries that purchased grapes in New South Wales were sent a standard questionnaire seeking information by variety on tonnes purchased, total purchase value per variety as well as highest and lowest price per tonne paid. Wineries were asked to identify the region of origin of the grapes purchased. Total purchase value is the total dollar amount paid for all grapes and is based on the weighbridge price excluding freight.

The following tables provide the results of this survey, by major region.

Regional groupings in this publication are:

NSW Totals	pages 3
Big Rivers – Other	page 4
Canberra District	page 5
Cowra	page 6
Central Ranges –Other	page 7
Hunter	page 8
Mudgee	page 9
Northern Slopes	page 10
Orange	page 11
Riverina	page 12
Southern NSW Zone - other	page 13
Western Plains Zone	page 14

Some smaller regions have not been published due to lower response rates.
